ABSTRACT

Lastname, Firstname, Title of doc. Master of Arts (Nameofyourmajor), May, 2016, Sam Houston State University, Huntsville, Texas.

This is the format for the bibliographic information required for the abstract. The content of the abstract that follows this citation will vary according to the subject area. The abstract should be concise and informative; however, the abstract must be less than 350 words in length. Students should consult their thesis director and style manual to determine the content of the abstract. In general, it should state the purpose and describe the subjects and the methodology used in the study. The abstract should also describe the findings, conclusions, and implications of the study.

A list of key words must be included at the bottom of the abstract; however, key words and the title information do not count toward the 350-word total. Key words should be specific terms or phrases used in the thesis that would enable a person to successfully search out the content of the document if it were in a library database. If one of the key words is a proper noun, follow the normal rules of capitalization. Likewise, italicize or underline foreign words or appropriate scientific nomenclature. The first word of each key term should be capitalized.

Below is a random list of key words pulled from previous manuscripts as examples.

KEY WORDS: Gender inequality, Forensic entomology, Wilsonian organic neuroplasticity, Shine-Galgarno sequence, Binaural beats, Death penalty.
